The USC Race and Equity Center is offering a series of professional learning experiences via Zoom for individuals and partner organizations engaged in the Bill & Melinda Gates Foundation’s SD&D ecosystem. Each live, synchronous 90-minute session will be highly interactive and focused on racial equity strategies, solutions, and practical problem-solving approaches. Slide decks, video recordings of the live sessions, and all other related materials will be available within one week following each session. Registration is required for every session in the series.
